Wheels: Plastic wheels with double bearings and rubber coated working surface.

Engine choices: Robin, B&S, Honda, Yamaha, Victa, Suzuki

Do twice the job...at half the cost...in half the time!

- Promotes healthy decomposition of grass clippings
- Conserves moisture – mulched material traps valuable moisture longer allowing for better growth
- Greener Healthier grass - Enhances overall growth and photosynthesis
- Reduces fertilizer requirements up to 25%
- Save as much as 50% in mowing time – no emptying of grass box
- Use 50% less fuel
- Less wear on equipment
- Lower labour costs – reduction of man hours
- No transport costs - disposal of the grass clippings not required
- Increase safety – Eliminate hazardous discharge
- More freedom and manoeuvrability – no rear grass box or side chute to worry about
- Gives you uniform mowing – less wheel marks due to reduction in weight
- Zero discharge also helps to reduce expensive property claims caused by flying debris

No need to collect or remove grass clippings
